SKILLS

Languages: JavaScript, Python, SQL, PowerShell, Bash

Technologies & Tools: Splunk, SailPoint IAM, Active Directory, Windows Server, Wireshark, Sysmon, MITRE ATT&CK, Express, MySQL, PostgreSQL, REST APIs, Docker, Git/GitHub, HAPI FHIR, Postman, Microsoft 365, Azure, SharePoint

Frameworks & Compliance: NIST, CIS, PCI-DSS, GDPR, PHIPA, ITIL v4, SDLC.

EXPERIENCE

Asset Protection Associate

Jun 2025 - Present

Walmart Canada · Hamilton, ON

- Managed 100+ incident cases from intake to closure, keeping documentation in line with WSIB and internal policy.
- Gathered evidence and ran early reviews on safety, ethics, and security incidents, keeping records accurate and confidential.
- Worked with Telus Health, Crawford, medical providers, and management to move claims forward and set up return to work plans.
- Investigated incidents to find root causes, ran safety audits, and added controls to stop them happening again.
- Teamed up with HR, Operations, and protection staff to close gaps and follow up on policy violations.
- Kept investigation files ready for audit and advised managers on safety rules and policy.

Focus: Incident Investigation · Case Management · Compliance · Root Cause Analysis

Support Engineer

Jul 2022 - Dec 2024

Crestflow Energy · FCT, NG

- Managed Windows-based user access and provisioning through SailPoint, granting and revoking role-based permissions for staff across the business.
- Continuously monitored access logs on systems processing payment and metering transactions, keeping account activity accountable and audit ready.
- Migrated company web applications from external hosting onto in-house servers (cPanel, DNS, Nginx), improving speed and cutting hosting costs by 20%.
- Hardened the web stack with SSL, security headers, rate limiting, and input validation, and optimized database queries and caching for performance.
- Wrote SOPs covering meter vending, tariff configuration, meter onboarding and decommissioning, and Paystack payment gateway integration.
- Supported customers and estate administrators on vending and administrative issues, providing rapid response troubleshooting.

Tech Stack: SailPoint · Windows Server · PowerShell · Nginx · SSL/TLS

Software Developer

Oct 2021 - Dec 2024

PathFinder Idee Tech Solution · FCT, NG · Remote

- Built and ran the backend for an edtech platform used by several Air Force schools, covering robotics lessons, student enrolment, and school administration.
- Wrote REST APIs in Node.js and Express for the core features, covering CRUD operations, filtering, pagination, and validation.
- Designed the MySQL and PostgreSQL databases and tuned queries and indexes to keep the platform fast as more schools joined.
- Added JWT login and access by role for students, instructors, and administrators, with bcrypt password hashing and input validation.
- Connected outside APIs and payment and notification services, running background jobs with error handling and retries.
- Used Git and GitHub with branches, pull requests, and code reviews to support testing, debugging, and releases.

Tech Stack: Node.js · Express · REST APIs · MySQL · PostgreSQL · JWT · Git

EDUCATION

Postgraduate Certificate, Digital Health , Mohawk College, Hamilton, ON	2026
Graduate Certificate, Cybersecurity Analysis , Mohawk College	2025
Diploma, Computer Software Engineering , AltSchool Africa	2023
B.Eng., Power & Machinery Engineering , Federal University of Technology, Owerri	2021

CERTIFICATIONS

CompTIA Security+ · Google Cybersecurity Certificate · Microsoft Azure Fundamentals (AZ-900) · Microsoft Security, Compliance & Identity Fundamentals (SC-900) · Splunk Core Certified Power User · Generative AI · Data Structures & Algorithms.
