SKILLS

Languages: JavaScript, Python, SQL, PowerShell, Bash

Technologies & Tools: Splunk, SailPoint IAM, Active Directory, Windows Server, Wireshark, Sysmon, MITRE ATT&CK, Express, MySQL, PostgreSQL, REST APIs, Docker, Git/GitHub, HAPI FHIR, Postman, Microsoft 365, Azure, SharePoint

Frameworks & Compliance: ISO 27001, NIST, CIS, PCI-DSS, GDPR, PHIPA, ITIL v4, SDLC

EXPERIENCE

Asset Protection Associate

Jun 2025 - Present

Walmart Canada · Hamilton, ON

- Managed 100+ incident cases from intake to closure, keeping documentation in line with WSIB and internal policy.
- Gathered evidence and ran early reviews on safety, ethics, and security incidents, keeping records accurate and confidential.
- Worked with Telus Health, Crawford, medical providers, and management to move claims forward and set up return to work plans.
- Investigated incidents to find root causes, ran safety audits, and added controls to stop them happening again.
- Teamed up with HR, Operations, and protection staff to close gaps and follow up on policy violations.
- Kept investigation files ready for audit and advised managers on safety rules and policy.

Focus: Incident Investigation · Case Management · Compliance · Root Cause Analysis

Support Engineer

Jul 2022 - Dec 2024

Crestflow Energy · FCT, NG

- Monitored systems 24/7 with Splunk, catching and removing 350+ malware cases before they reached 30,000+ machines.
- Set up SailPoint to manage logins and access for over 15,000 users across cloud and on-prem systems.
- Wrote and enforced security policies for 12,000 users, meeting ISO 27001 and national regulations.
- Moved web apps off outside hosting onto our own servers (cPanel, DNS, Nginx), improving speed and cutting hosting costs by 20%.
- Set up Advanced Metering Infrastructure (AMI), improving energy monitoring and cutting power loss by 25%.

Tech Stack: Splunk · SailPoint · PowerShell · ISO 27001 · cPanel · Nginx

Software Developer

Oct 2021 - Dec 2024

PathFinder Idee Tech Solution · FCT, NG · Remote

- Built and ran the backend for an edtech platform used by several Air Force schools, covering robotics lessons, student enrolment, and school administration.
- Wrote REST APIs in Node.js and Express for the core features, covering CRUD operations, filtering, pagination, and validation.
- Designed the MySQL and PostgreSQL databases and tuned queries and indexes to keep the platform fast as more schools joined.
- Added JWT login and access by role for students, instructors, and administrators, with bcrypt password hashing and input validation.
- Connected outside APIs and payment and notification services, running background jobs with error handling and retries.
- Used Git and GitHub with branches, pull requests, and code reviews to support testing, debugging, and releases.

Tech Stack: Node.js · Express · REST APIs · MySQL · PostgreSQL · JWT · Git

EDUCATION

Postgraduate Certificate, Digital Health, Mohawk College, Hamilton, ON

2026

Graduate Certificate, Cybersecurity Analysis (Forensics & Counterterrorism), Mohawk College

2025

Diploma, Computer Software Engineering, AltSchool Africa	2023
B.Eng., Power & Machinery Engineering, Federal University of Technology, Owerri	2021

CERTIFICATIONS

CompTIA Security+ · Google Cybersecurity Certificate · Microsoft Azure Fundamentals (AZ-900) · Microsoft Security, Compliance & Identity Fundamentals (SC-900) · Splunk Core Certified Power User · Generative AI · Data Structures & Algorithms
